

HOW YOU CAN PREPARE

Begin gradually adjusting your child's sleep, meal, and play schedules to align with our routine. Consistency will make the transition from home to the Montessori program much smoother.

Create positive associations with Montessori program by talking about the fun activities, friends, and new experiences they'll have. Read stories about starting school, and engage in imaginative play where your child takes on the role of a student. This will help build excitement and anticipation.

Maintain open communication with our teachers. Share important information about your child's habits, preferences, and any special needs they may have.

"The goal of early childhood education should be to activate the child's own natural desire to learn."

ABOUT US

Every child is unique and develops at their own pace. At Orange Seeds Montessori Centre, our Toddler and CASA programs support each child's development and help them discover their natural talents and interests. Children learn hands-on, and their learning includes practical life activities.
